European Union Greenhouse Gas Emissions Trading System for Stationary Installations (Amendment) Regulations, 2025

Introduction

European Union Greenhouse Gas Emissions Trading System for Stationary Installations (Amendment) Regulations, 2025 continue to transpose Directive (EU) 2023/959 of the European Parliament and of the Council of 10 May 2023 amending Directive 2003/87/EC establishing a system for greenhouse gas emission allowance trading within the Union and Decision (EU) 2015/1814 concerning the establishment and operation of a market stability reserve for the Union greenhouse gas emission trading system. The aim of the amending legal notice is to correct cosmetic omissions and/or errors in the transposition via SL. 643.06, and thus provide legal certainty.

Sectors covered by these regulations

The Legal Notice is relevant to the operators of (a) stationary technical unit/s where one or more activities listed in Schedule 1 to SL. 643.06 are carried out and any other directly associated activities which have a technical connection with the activities carried out on that site and which could have an effect on emissions and pollution.

Overview of the obligations

Regulation 2 amends regulation 11(2e) of SL.643.02 correcting an error in the cross-reference, which relates to no free allocation, from which the sub-regulation derogates.

Regulation 3 amends amends regulation 19(4a) by providing a cross-reference to the act adopted by the European Commission that establishes the requirements for considering that greenhouse gases have become permanently chemically bound in a product (currently these requirements are established via Commission Delegated Regulation (EU) 2024/2620).

Compliance with the amendment regulations

The Climate Action Authority shall ensure compliance with these Regulations
